# LIÈGE

A wide-angle photograph of Liège, Belgium, showcasing its urban landscape and waterfront. The Meuse River flows through the center, bordered by a modern concrete promenade with a green metal railing. People are seen sitting on a long, low wooden bench along the riverbank. In the background, a prominent glass skyscraper with a unique, curved top stands out against a clear blue sky. Other residential buildings and a cable-stayed bridge are visible across the river. The scene is bright and sunny, with lush green trees in the foreground.

About 200.000 inhabitants

One of the major cities in
