LIÈGE

A wide-angle photograph of Liège, Belgium, showcasing a mix of modern and traditional architecture. The Meuse River flows through the center, with a prominent white cable-stayed bridge crossing it. In the background, a tall, blue glass skyscraper stands out against the clear blue sky. The foreground features a paved promenade with a green railing, where several people are sitting on a bench. The scene is bright and sunny, with lush green trees and a clear sky.
